NO MORE BODIES IN MINE

Conceded All Victims Have Been Removed From Workings

TO RESUME MINE WORK

It is now generally conceded that all bodies have been removed from the wrecked Cincinnati mine. Every day last week there were 12 to 16 men employed in the mine with instructions to look for bodies. They found none.

The body of the son of S. T. Homes, of Finleyville, is missing. Mr. Homes spent two days in the mine himself and does not believe there are any more bodies there. He thinks somebody else got his son's body through mistake. There were two bodies buried without identification and two miners were unaccounted for, young Homes and a man by the name of Oiler.

The story about a man by the name of Vincent being missing is denied by the company. They claim there was no fire boss by that name employed in the mine.

Little further of interest will occur until the time of the inquest next Monday morning. Relief committees are still at work. To the Charleroi Mail Relief fund today was added the sum of \$15.56, this representing a collection at St. Mary's Episcopal church for the sufferers from the disaster. The total in the Mail fund is now \$193.58.

STOPS FAST TRAIN TO PICK LAUGHING BABE OFF THE TRACK

While driving his express train through Elco yesterday Engineer Walter Byalen saw directly ahead on the track a curly-haired baby. By prompt application of the emergency brakes the train was brought to a stop within a few feet of the child.

The engineer placed the little one in the arms of its mother, Mrs. Jane Bruce who had run out to see why the train had stopped in front of her home.

INCENDIARY FIRE DISCOVERED JUST IN NICK OF TIME

A residence on Tenth street, Monessen this morning was saved from destruction by fire by the discovery of the flames by a neighbor. Living in the building are a family of foreign people. The fire which was at the front of the house, and plainly of incendiary origin was seen from some distance by a neighbor as it was getting a start. He roused the inmates and the flames were extinguished.

Against the front of the building had been piled inflammable wood and

COMPLETE WORK OF TRAINING

Federal League Team Makes Getaway Today for Pittsburg

LINEUP IS ANNOUNCED

Having completed their work of training the Indianapolis team of the Federal league left this afternoon for Pittsburg, where tomorrow afternoon they will engage with Deacon Phillip's Filipinos in the opening game there.

Temporarily Manager Phillips will carry 18 men. Four pitchers were dropped from the roll Saturday night, Alex. Sutherland the East Pike Run southpaw pitcher; Pat Swaney, a Monessen southpaw, Kneesel, the Beltzhoover youth and Potter, of Uniontown. Phillips will look for places for all four, and thinks he will be able to land at least one with another team. This will in all probability be Potter.

Of the young and inexperienced players there will be just two on the list, Bill France, of West Middletown, Washington county a pitcher and Durell of Coraopolis a catcher. Both show need of careful training, but Phillips believes with the attention he will be able to give them they will make good.

The lineup that will be presented at Pittsburg tomorrow afternoon has been given out as follows: Kaiser, middle field; Vandagriff, second base; Miller, or Beswick, left field; Timmer, or Swartling, first base; Massing or Durell catcher; Scott, shortstop; Alcock, third base; Brown, right field; Bair, Beebe, Reis or Billiard, pitcher.

It is generally believed that Beswick, the young chap from Ohio, will be given a regular job in the outfield and there is a big possibility that on Tuesday he will be given the left garden place. Of all the players who participated in the game Saturday with the Charleroi Independents Beswick showed up brightest. He had two chances in right field, and accepted them cleanly. One of them was particularly hard. At the bat he distinguished himself by cracking out two two-baggers. Swartling the former Zanesville first baseman according to present arrangements is to join the club in Pittsburg but it is doubtful if he will get in the first game. Manager Phillips will not make his choice of pitchers public until immediately before the start of the contest.

This morning's work at the ball ground consisted of batting and fielding practice. Little opportunity has been afforded for Phillips to work up any system of signals, but this afternoon this will be gone over at a meeting of the players in Pittsburg. The team will be quartered at the Colonial Annex.

A number of ardent Charleroi fans will go to Pittsburg tomorrow it is understood to witness the opening attraction there of the Indianapolis and Pittsburg teams. An automobile parade will be a feature.

carbon oil had been scattered all about. A railroad torch lamp was found in the midst of the wood leaning against the building. The police were called and are investigating.

GROVE IS STARTED ON THE APPROACH TO RIVER BRIDGE

Speers End of Belle Vernon Structure Made a Picturesque Place—"Keep off Grass" One of the Signs

Trees set in systematic style, with sod showing a beautiful green grass at their base and with signs such as "Keep Off the Grass," "Thompson's Lane" and advertising posters tacked to the trees was the startling scene Speers folks noticed on the Speers approach to the Speers-Belle Vernon bridge Sunday morning. Later in the day some practical joker placed a rocking chair in a comfortable place under one of the trees. Thousands visited the scene Sunday and numerous photographs were taken.

Who arranged the picturesque dis-

play is a question. Its purpose of course was to create a ludicrous situation out of the delay in the completion of the repairs to the bridge. Thompson is the man understood to be in charge of a part of the work, and the "lane" was named after him. All told there are probably 15 trees in various stages of development now growing on the approach to the bridge as the work of the Saturday night jokers. Last week somebody planted oats and the seed sprouted. This was too slow so the sod was laid.

STATE POLICE PLACES VACANT

Examinations Held For Aspirants to Positions With Constabulary

Twelve vacancies, the largest in months are reported by the State police force, and Superintendent Groome's department examination has been held. Since a law was passed in 1911 fixing regular terms for members on the force there have been few vacancies, as trained men are unable to resign. The present vacancies were caused by expiration of enlistment terms. An idea which was held strongly in some districts, though decreasing as the real work of the force became known, pictured the troopers as being perpetually in the midst of carnage. In view of this it is interesting to note that just now, aside from ordinary substitution work, the State's mounted men are spending most of their time on patrols to help the game wardens enforce the law protecting trout.

STATE POLICE LOOK FOR ALLEGED THIEF IN THIS VICINITY

Members of the State constabulary were here Sunday looking for a colored man by the name of Eugene Broadnax of Fredericktown, who is accused of stealing a sum of money understood to be about \$100 from the Darion hotel at that place. It is reported that the theft occurred Saturday night and that Broadnax left immediately. Efforts are being made to locate him elsewhere.

INVITATIONS FOR ORDINATION ARE RECEIVED HERE

Invitations have been received here to the ordination of Rev. John J. Price to the priesthood of the Roman Catholic church to take place at Cleveland Ohio, on May 17. Rev. Price will conduct his first mass at St. Mary's church at Painesville, Ohio, on May 18. Mr. and Mrs. Charles Landersback and Misses Catherine and Elsie Landersback from Charleroi will probably attend the ordination.

PREPARING FOR CAMP HOSPITALS

Arrangements Being Perfect-ed at Gettysburg by State Health Department

Arrangements have been completed for the establishment of an emergency hospital of 175 beds to care for the thousands of visitors from every State in the Union who will attend the fiftieth anniversary celebration of the Battle of Gettysburg this summer. The hospital will be conducted by the State Department of Health and will be under the personal supervision of Commissioner Samuel G. Dixon.

The State G. A. R. encampment begins on June 26th but the greatest crowds are expected on July 2, 3, and 4th. It is estimated that there will be 55,000 visitors in addition to the 32,000 Union and Confederate veterans who will be present.

Governor Tener has ordered the commissioner of health to take all necessary steps to safe-guard the health and add to the comfort of the visitors.

The emergency hospital will consist of 30 hospital tents and accommodations for the 16 doctors and 18 nurses who will be on duty. It will have a commissary department, a fully equipped operating tent with a consulting surgeon constantly at hand. There will be in addition two hospital cars in order that serious or operative cases may be transferred daily to the hospitals in nearby cities.

In addition to the main hospitals there will be two dispensaries with six beds with a nurse and physician in charge.

One of these will be located at the railroad station to care for any visitors who may be ill upon arrival and one located near the great assembly tent where the meetings are to be held.

In addition to these dispensaries there will be six emergency stations at points where the crowds collect in order that first aid may be administered promptly. There will be ambulance service to convey patients to the main hospital from the dispensaries and emergency stations. Nine comfort stations will be erected at convenient points and these will be in charge of male and female attendants.

The regular water supply of Gettysburg will be augmented by specially

ACCIDENT RESULTS FATALLY

Boy Hit by Motor Cycle at Monessen Succumbs to Injuries

IS CORNER HAPPENING

From injuries sustained by being struck by a motorcycle understood to have been ridden by Milton Schrader, of Monessen, the four year old son of William Bramley died this morning at Monessen.

The lad was injured through accident, and it is told largely by fault of his own. It is stated that he was stealing a ride on the rear of a wagon and hopped off at the corner of Reed avenue and First street. It so happened that Schrader was coming around the corner. The boy jumped from the wagon directly in front of the motor cycle. He was knocked down.

He was taken home after being given the attention of a doctor. His death is said to have been due to internal injuries.

MINE OPERATED DURING PERIOD OF 59 YEARS

According to a Monongahela man the old Cincinnati mine where the mine explosion occurred several days ago which caused 96 deaths, was 59 and not 80 years old as announced some days ago. He says:

"The Cincinnati mine was opened in 1854 by Capt. William Ferree for the Cincinnati Coal company, which built an abutment tippie and operated until 1855, when it was leased to George Campfield, who operated it until 1860.

"It was then leased to George Groves, Louis Moule, and George Ordner, after which W. H. Barr was added to the company, which operated until 1862.

"Then the property was sold to Armstrong & Herron, who in 1863 sold it to John Dippold, John L. Porter, R. G. Herron, and William A. Herron, who operated until 1865, when Dippold bought the interests of his partners and leased the mine to William Huston and R. G. Herron.

"Old Cincinnati mine was opened in 1851 by Capt. William Ferree, a short distance northwest of the present opening."

Installed pumps to insure an adequate quantity. Flowing fountains will be installed about the city and grounds. All of the wells in Gettysburg and vicinity have been examined and analysis made of the water and those which are not safe will be closed.

The dispensaries, emergency stations and public comfort stations will all be connected by telephone with the State Department headquarters at the general hospital.

DYNAMITE IS FOUND BY BOYS

Mystery Connected With Finding of Explosives in Culvert

PREPARED FOR ACTION

The finding of six sticks of dynamite with caps and fuse set in a culvert under the improved road leading from Beallsville to Bentleyville Sunday caused all kinds of excitement in that neighborhood. Many persons are of the belief that a repetition of the Ferguson murder would have resulted had not the explosive been discovered. Others are inclined to believe that the dynamite had been placed there by miners engaged at the Ellsworth Collieries with the intention of getting it the next day.

The discovery of the explosive was made by children of Lindsay Rutan. The culvert under which the dynamite was found is very close to the residence of Mr. Rutan and had it been set off it is likely that the Rutan home would have been badly damaged. The children of Mr. Rutan were playing near the culvert and saw the deadly stuff and called the attention of Charles Power of Beallsville and Ernest Hawkins of Garwood to it. They investigated and found six sticks all ready for action. Mr. Powers took the explosive to Bentleyville and disposed of it.

GREAT PREPARATIONS FOR AUCTION SALE OF LOTS AT ELDORA

The Eldora lot plan, on the Pittsburg and Charleroi trolley line presents a busy picture these days. Great preparations are being made for the auction lot sale to be held there next Friday and Saturday afternoon. A large force of men is engaged clearing off the grounds, building board walks, plowing, road scraping, burning brush, whitewashing, etc., and the whole place is being beautified and made exceedingly attractive. It is being transformed into a delightful place for a home-settlement and looks prettier and more inviting than ever before. Eldora is an ideal spot for suburban homes, as well as profitable investment, and crowds of people are on the ground every day looking over the lots and getting ready to bid at the auction sale. Buying suburban building lots is the easiest way to make money. The lots grow in value while you sleep. 2421r

TEACHERS AND SALARIES.

It goes without saying that teach-
ers in the public schools are poorly
paid. In recent years there have
been some increases in the minimum
salaries allowed them by law, but
nevertheless educators are underpaid,
says the Beaver Times. Competent
instructors—teachers who teach and
have an uplifting influence on their
pupils—are paid much less than they
should receive. There are competent
teachers getting forty-five dollars a
month to eight months in the year,
after long preparation for their chosen
profession, which workers in some of
the industries earn more without
any special preparation for their
work. There are other public ser-
vants who give less service and need
no preparation for it whatsoever.

A competent instructor gives much
more than his or her time or ability
as teacher. There is the school in-
fluence and upbuilding of the char-
acter of pupils, which is not such a
great fiction as might be supposed,
to include in the reckoning. The pu-
pils are under the eyes of teachers
more hours every day than they are
under the eyes of the parents. The
teachers who take an interest in the
pupils and their work will exert them-
selves to impart knowledge, to give
stability of character, to elevate
minds, to build high aspirations, to
inspire pupils to strive for the best
ideals. Not all pupils will respond to
the best that teacher can do. The
quality of any product depends largely
upon the soil in which the seed is
sown. Nor do all teachers have the
ability, or the desire to accomplish
all that is mentioned here.

But notwithstanding that, nearly
all teachers ought to have better sal-
aries than they are getting.

ATHLETES OLD AND NEW.

The athlete who is gone is like the
song that was sung before the days of
the phonographs—a memory only.
Records tell the height of a jump or
the time of a hundred-yard dash; but
there is no way of recording that
grimmer prowess of the wrestling
mat the football field, the prize ring.
Ever records are a matter of yester-
day so to speak, says the Chicago
Journal.

Our ancestors of a few generations
back did not hold stop watches, nor
carry around rulers and notebooks.
So it comes, that there is no way of
settling the ever-recurring question
of the physical advance or deteriora-
tion of the race. No way of settling
it with certitude. But there is some
facts which point a pitiable verdict.
At a pageant some years ago in Eng-

land it was thought that the spirit of
the middle ages would be better
reproduced if the knights wore real
armor. Those picked to represent the
knights thereupon descended on the
museums where the old armor is pre-
served, and tried to work themselves
into these "iron overcoats." And with
hardly an exception it proved that the
armor worn by the doughty knights
of yore was too small to buckle on
the modest gentlemen of today.

ELECTRIC SPARKS

That tired feeling is nothing com-
pared to that feeling of overwork.

"September Morn" doesn't sound
like a name that would cause much
trouble, but this innocent title was
attached to a bit of art in the nude

FEAR OVERFLOW OF WATER FROM ROSTRAVER MINE

It is reported that the old Rostraver
mine, across the river from North
Charleroi, which has been abandoned
for years is filled with water. The
worked out portion of the mine
is believed to be flooded from
hard rains of the last few
months. A break is feared. Al-
most yearly this mine gets filled with
water and when the inevitable break
occurs heavy damage invariably re-
sults.

PICKED UP IN PASSING INDEPENDENTS

Few people seem to realize the en-
less amount of time they waste in
answering the telephone and are
equally regardless of the annoyance
they cause the business people by not
giving plain, direct and immediate
answers. This fault, of course, is due
to thoughtlessness, and, therefore,
is quite pardonable, but is none the
less provoking. So a few simple rules
if followed out, may prove a help,
both to the caller and the person
called:

First—Never pick up the receiver
until the bell stops ringing. In so
doing the bell on your other party's
wire rings and he will answer it,
which causes a babble of voices and
much confusion.

Second—Do not place your mouth
too close to the mouthpiece. This
causes a vibration and this prevents
your being heard distinctly.

Third—When you call a party give
"Central" the district, number and
letter, slowly, and distinctly.

Fourth—When you get the party,
your question should be, "Is this So-
and-So?" not, "Who is this?" which
is neither a pertinent nor a time sav-
ing question.

Fifth—Speak in as moderate a tone
as you would if the person were right
beside you. To shout also makes a
vibration, which is very annoying, and
even a deaf person can hear a moder-
ate tone over the phone.

Sixth—Don't mention names or tell
"all you know" over the phone. This
is a very unwise policy, and unless
you have a private wire you have no
right to monopolize it indefinitely to
the exclusion of those on your wire.

The teacher was earnestly trying to
illustrate the outcome of laziness and
idleness. He drew a terrible picture
of the habitual loafer, the man who
hates work, and his ultimate fate.
"Now, Charles," he continued to a
little boy who had been looking out
of the window, and whose mind was
far from the lesson of the hour, "tell
me who is the wretched, miserable in-
dividual who gets clothes, food and
lodging, and gives nothing in re-
turn?"

Charles's face glowed.
"Please, sir," he replied, "the
baby!"

MINER COMES TO THE DEFENSE OF CORONER HEFFRAN

To the Editor of the Charleroi Mail:
As a great deal of undue criticism
has been made of the action of Cor-
oner James T. Heffran in naming the
jury he did for hearing the evidence
into the Cincinnati mine disaster on
May 12, I would like to state as a
matter of enlightenment of his critics
that Section 2, of Article XXVII of
the mining law covers the selection
of jurors for an inquest. The eligi-
bility of jurors, as it reads, is that no
person who is directly or indirectly
interested shall serve on the investi-
gating jury.

This prohibits the coal operator as
well as the miner from acting on the
jury. However all will be permitted
to testify before the jury. Coroner
Heffran is living up to the law which
must be respected. I wish the miners
would read the mining law and quit
knocking. Coroner Heffran is a credit
to the miners of Washington county.
Let us have fair play.

ARE EASY FOR PHILLIPS' NINE

No difficulty whatever was experi-
enced by the Indianapolis Federals
Saturday afternoon in defeating the
Charleroi Independents, a dozen to
nothing. All pitchers of the Feds,
including Bill Phillips, Jr., young
and six feet something tall, had the
number of the Independents. Reis
in three innings allowed three hits,
Beebe in two sessions permitted two
bingles. Phillips in two gave one hit
and Billiard didn't permit any tam-
pering whatever with his curves and
shoots.

Two hits in the second inning and
a lot of other things, including a
quantity of stolen bases, brought three
runs for the Feds, and they scored
one in the fourth on a base on balls
and Alcock's triple. Kaiser, Tiemyer
and Durell scored in the fifth by
heavy clubbing and one error. Two
bases on balls, a single, a stolen base
and a triple resulted in three runs
in the eighth and in the ninth In-
dianapolis scored two runs on three
hits, one of which was Beswick's
second double of the game. Score:

WOMEN GAMBLE FOR HIGH STAKES

Many women are gamblers for
very high stakes. They stake their
health and good looks upon every-
thing working out all right when at-
tacked by those ailments which their
sex alone are called upon to suffer.

The only excuse can be ignorance
of the dangerous consequences or an
aversion to undergo medical exami-
nation. This may often be avoided by
recourse to Lydia E. Pinkham's Veg-
etable Compound, a perfectly safe
and harmless remedy compounded
from roots and herbs, which for
nearly forty years has been curing
American women from the worst
forms of female ills.

NORTH CHARLEROI

Winona and Anna Paxton gave a
farewell reception to about 25 of
their hill top friends Thursday even-
ing before moving into the Lock-
masters house at the Lock. A lunch
was served at 10:30. A very enjoy-
able evening was spent.

Richard Thomas was a Pittsburg
caller on business.

Miss Elsie Claybaugh of Brown-
ville is visiting her sister Mrs. Char-
les Booth.

Edward Newell called on friends
in Donora.

Mr. and Mrs. Steven Cratty have
sold their property and will move to
Cleveland, Ohio soon. Mr. Cratty has
resigned his position as motorman
on the Charleroi and Monessen car
line. He expects to leave today. And
the family will leave later.

Mrs. Hiram Myers was the guest
of her daughter Mrs. O. J. Krieger of
Monessen the last of the week.

Rev. and Mrs. Benjamin Bungard
of Monessen were guests of Mr. and
Mrs. Charles Fortney Saturday.

Miss Marion Thomas visited at the
home of her aunt, Mrs. F. C. Mercer
at Pittsburg Sunday.

A GOOD PRESCRIPTION

For a Long Life

This is the prescription for a long
life given by an old gentleman in
Conn., who is 99 years old and still
well and cheerful—"Live temperate-
ly, be slow to anger, don't worry,
take plenty of exercise in the fresh
air, and above all keep cheerful."

Should the system get rundown—
digestive organs weak—the blood
thin and sluggish take Vinol, which
is a delicious combination of the
medicinal—body-building properties
of cods' livers, with the useless
grease eliminated and tonic iron
added. We regard Vinol as one of the
greatest body-builders and strength
creators in the world for aged peo-
ple.

Mrs. Mary Ivey of Columbus, Ga.,
says: "If people only know the
good Vinol does old people you would
be unable to supply the demand; it
is the finest tonic and strength crea-
tor I ever used."

We wish every feeble old person
in this vicinity would try Vinol on
our agreement to return their money
if it fails to give satisfaction. Piper's
Drug store.

Card of Thanks.

For the many kindnesses extended
us during the sickness and death of
our beloved husband and father, for
the sympathy offered, and for the
beautiful floral tributes so gener-
ously given, we wish to express our
sincerest thanks.

Mrs. Estenfelder and Children.

No Rainy Days

To the man with cash in the
bank, there will be no rainy
days—the days of sickness and
misfortune will lose much of
their sting—it will prove an un-
failing friend in time of need.

If you will start a savings
account with this bank, adding
a little to it each week, you will
do away with the rainy-day
fear—it only requires a dollar
to get started.

Eating in the Fifth Act of Life. The advice which Sydney Smith gave to Lord Murray on the subject of diet was probably sound. "If you wish for anything like happiness in the fifth act of life," he wrote, "eat and drink one-half of what you could eat and drink. Did I ever tell you my calculations about eating and drinking? Having ascertained the weight of what I could live upon so as to preserve health and strength, and what I did live upon, I found that between ten and seventy years of age I had eaten and drunk forty-four horse wagon loads of meat and drink more than would have preserved me in life and health. The value of this mass of nourishment I considered to be worth £7,000. It occurred to me that I must, by my voracity have starved to death fully 100 persons. This is a frightful calculation, but irresistibly true."

How a Woman Saved Nice. It happened in August, 1543, and is recalled by Mrs. Walter Tibbits in "Cities Seen in East and West." Nice (then under the dukes of Savoy) was being besieged by Francis I and Barbarossa.

Catherine Segurine was a washerwoman whose creed was laborare est orare. She carried food to the defenders on the ramparts still left. The Turks had put up a scaling ladder. The captain led his party, and they were actually on the parapet. She rushed at the Turkish officer, wrenched the flag he was carrying from him, beat him back with the butt end and threw down the ladder on top of all. Then rallying the soldiers they threw open a postern made a sortie and drove the Turks to the shore.

Trouble and a Camera in Cairo. I perceived that it would be impossible to photograph any of the bazaars of Cairo without very efficient help. Its great good fortune I ran across an excellent dragoman a couple of hours later. He could speak English well, and his terms were reasonable. I explained to him what I wanted to do, and he said he could manage it, so I promptly engaged him, and the following afternoon found me again at the bazaars. Here, in spite of almost insuperable difficulties, I secured several good photographs. No sooner had I taken my camera out of its case than I was literally hemmed in by a crowd of curious people, and before the photograph could be taken these had to be kept back and the traffic stopped on either side of the subject being photographed. The difficulties involved may possibly be imagined, certainly not described. Once a native policeman came to my aid, thrashing right and left with a rope end. The ubiquitous small boy, who wears nothing but an abbreviated cotton gown, went off howling. When the photograph had been taken, every body wanted bakshesh, and my dragoman had to fight off all those not entitled to a fee. I was glad to pay the men who frequently volunteered to keep the crowds back.—Christian Herold.

NO MORE BODIES IN MINE

Conceded All Victims Have Been Removed From Workings

TO RESUME MINE WORK

It is now generally conceded that all bodies have been removed from the wrecked Cincinnati mine. Every day last week there were 12 to 16 men employed in the mine with instructions to look for bodies. They found none.

The body of the son of S. T. Homes, of Finleyville, is missing. Mr. Homes spent two days in the mine himself and does not believe there are any more bodies there. He thinks somebody else got his son's body through mistake. There were two bodies buried without identification and two miners were unaccounted for, young Homes and a man by the name of Oiler.

The story about a man by the name of Vincent being missing is denied by the company. They claim there was no fire boss by that name employed in the mine.

Little further of interest will occur until the time of the inquest next Monday morning. Relief committees are still at work. To the Charleroi Mail Relief fund today was added the sum of \$15.56, this representing a collection at St. Mary's Episcopal church for the sufferers from the disaster. The total in the Mail fund is now \$193.58.

COMPLETE WORK OF TRAINING

Federal League Team Makes Getaway Today for Pittsburg

LINEUP IS ANNOUNCED

Having completed their work of training the Indianapolis team of the Federal league left this afternoon for Pittsburg, where tomorrow afternoon they will engage with Deacon Philippi's Filipinos in the opening game there.

Temporarily Manager Phillips will carry 18 men. Four pitchers were dropped from the roll Saturday night, Alex. Sutherland the East Pike Run southpaw pitcher; Pat Swaney, a Monessen southpaw, Kneessel, the Beltzhoover youth and Potter, of Uniontown. Phillips will look for places for all four, and thinks he will be able to land at least one with another team. This will in all probability be Potter.

Of the young and inexperienced players there will be just two on the list, Bill France, of West Middletown, Washington county a pitcher and Durrell of Coraopolis a catcher. Both show need of careful training, but Phillips believes with the attention he will be able to give them they will make good.

The lineup that will be presented at Pittsburg tomorrow afternoon has been given out as follows: Kaiser, middle field; Vandegraft, second base; Miller, or Beswick, left field; Tiemyer, or Swartling, first base; Massing or Durrell catcher; Scott, shortstop; Alcock, third base; Brown, right field; Barr, Beebe, Reis or Billard, pitcher.

It is generally believed that Beswick, the young chap from Ohio, will be given a regular job in the outfield and there is a big possibility that on Tuesday he will be given the left garden place. Of all the players who participated in the game Saturday with the Charleroi Independents Beswick showed up brightest. He had two chances in right field, and accepted them cleanly. One of them was particularly hard. At the bat he distinguished himself by cracking out two two-baggers. Swartling the former Zanesville first baseman according to present arrangements is to join the club in Pittsburg but it is doubtful if he will get in the first game. Manager Phillips will not make his choice of pitchers public until immediately before the start of the contest.

This morning's work at the ball ground consisted of batting and fielding practice. Little opportunity has been afforded for Phillips to work up any system of signals, but this afternoon this will be gone over at a meeting of the players in Pittsburg. The team will be quartered at the Colonial Annex.

A number of ardent Charleroi fans will go to Pittsburg tomorrow it is understood to witness the opening attraction there of the Indianapolis and Pittsburg teams. An automobile parade will be a feature.

Carbon oil had been scattered all about. A railroad torch lamp was found in the midst of the wood leaning against the building. The police were called and are investigating.

GROVE IS STARTED ON THE APPROACH TO RIVER BRIDGE

Speers End of Belle Vernon Structure Made a Picturesque Place—"Keep off Grass" One of the Signs

Trees set in systematic style, with sod showing a beautiful green grass play is a question. Its purpose of course was to create a ludicrous situation out of the delay in the completion of the repairs to the bridge. Thompson is the man understood to be in charge of a part of the work, and the "lane" was named after him. All told there are probably 15 trees in various stages of development now growing on the approach to the bridge as the work of the Saturday night jokers. Last week somebody planted oats and the seed sprouted. This was too slow so the sod was laid.

STATE POLICE PLACES VACANT

Examinations Held For Aspirants to Positions With Constabulary

Twelve vacancies, the largest in months are reported by the State police force. and Superintendent Groome's department examination has been held. Since a law was passed in 1911 fixing regular terms for members on the force there have been few vacancies, as trained men are unable to resign. The present vacancies were caused by expiration of enlistment terms. An idea which was held strongly in some districts, though decreasing as the real work of the force became known, pictured the troopers as being perpetually in the midst of carnage. In view of this it is interesting to note that just now, aside from ordinary substitution work, the State's mounted men are spending most of their time on patrols to help the game wardens enforce the law protecting trout.

STATE POLICE LOOK FOR ALLEGED THIEF IN THIS VICINITY

Members of the State constabulary were here Sunday looking for a colored man by the name of Eugene Broadnax of Fredericktown, who is accused of stealing a sum of money understood to be about \$100 from the Darion hotel at that place. It is reported that the theft occurred Saturday night and that Broadnax left immediately. Efforts are being made to locate him elsewhere.

INVITATIONS FOR ORDINATION ARE RECEIVED HERE

Invitations have been received here to the ordination of Rev. John J. Price to the priesthood of the Roman Catholic church to take place at Cleveland Ohio, on May 17. Rev. Mr. and Mrs. Charles Lauderback and Misses Catherine and Elsie Lauderback from Charleroi will probably attend the ordination.

PREPARING FOR CAMP HOSPITALS

Arrangements Being Perfect-ed at Gettysburg by State Health Department

Arrangements have been completed for the establishment of an emergency hospital of 175 beds to care for the thousands of visitors from every State in the Union who will attend the fiftieth anniversary celebration of the Battle of Gettysburg this summer. The hospital will be conducted by the State Department of Health and will be under the personal supervision of Commissioner Samuel G. Dixon.

The State G. A. R. encampment begins on June 26th but the greatest crowds are expected on July 2, 3, and 4th. It is estimated that there will be 55,000 visitors in addition to the 32,000 Union and Confederate veterans who will be present.

Governor Tener has ordered the commissioner of health to take all necessary steps to safe-guard the health and add to the comfort of the visitors.

The emergency hospital will consist of 30 hospital tents and accommodations for the 16 doctors and 18 nurses who will be on duty. It will have a commissary department, a fully equipped operating tent with a consulting surgeon constantly at hand. There will be in addition two hospital cars in order that serious or operative cases may be transferred daily to the hospitals in nearby cities.

In addition to the main hospitals there will be two dispensaries with six beds with a nurse and physician in charge.

One of these will be located at the railroad station to care for any visitors who may be ill upon arrival and one located near the great assembly tent where the meetings are to be held.

In addition to these dispensaries there will be six emergency stations at points where the crowds collect in order that first aid may be administered promptly. There will be ambulance service to convey patients to the main hospital from the dispensaries and emergency stations.

Nine comfort stations will be erected at convenient points and these will be in charge of male and female attendants.

The regular water supply of Gettysburg will be augmented by specially

ACCIDENT RESULTS FATALLY

Boy Hit by Motor Cycle at Monessen Succumbs to injuries

IS CORNER HAPPENING

From injuries sustained by being struck by a motorcycle understood to have been ridden by Milton Schrader, of Monessen, the four year old son of William Bramley died this morning at Monessen.

The lad was injured through accident, and it is told largely by fault of his own. It is stated that he was stealing a ride on the rear of a wagon and hopped off at the corner of Reed avenue and First street. It so happened that Schrader was coming around the corner. The boy jumped from the wagon directly in front of the motor cycle. He was knocked down.

He was taken home after being given the attention of a doctor. His death is said to have been due to internal injuries.

MINE OPERATED DURING PERIOD OF 59 YEARS

According to a Monongahela man the old Cincinnati mine where the mine explosion occurred several days ago which caused 96 deaths, was 59 and not 80 years old as announced some days ago. He says:

"The Cincinnati mine was opened in 1854 by Capt. William Ferree for the Cincinnati Coal company, which built an abutment tippie and operating until 1855, when it was leased to George Campfield, who operated it until 1860.

"It was then leased to George Groves, Louis Moule, and George Ordner, after which W. H. Barr was added to the company, which operated until 1862.

"Then the property was sold to Armstrong & Herron, who in 1863 sold it to John Dippold, John L. Porter, R. G. Herron, and William A. Herron, who operated until 1865, when Dippold bought the interests of his partners and leased the mine to William Huston and R. G. Herron.

"Old Cincinnati mine was opened in 1851 by Capt. William Ferree, a short distance northwest of the present opening."

installed pumps to insure an adequate quantity. Flowing fountains will be installed about the city and grounds. All of the wells in Gettysburg and vicinity have been examined and analysis made of the water and those which are not safe will be closed.

The dispensaries, emergency stations and public comfort stations will all be connected by telephone with the State Department headquarters at the general hospital.

DYNAMITE IS FOUND BY BOYS

Mystery Connected With Finding of Explosives in Culvert

PREPARED FOR ACTION

The finding of six sticks of dynamite with caps and fuse set in a culvert under the improved road leading from Beallsville to Bentleyville Sunday caused all kinds of excitement in that neighborhood. Many persons are of the belief that a repetition of the Ferguson murder would have resulted had not the explosive been discovered. Others are inclined to believe that the dynamite had been placed there by miners engaged at the Ellsworth Collieries with the intention of getting it the next day.

The discovery of the explosive was made by children of Lindsay Rutan. The culvert under which the dynamite was found is very close to the residence of Mr. Rutan and had it been set off it is likely that the Rutan home would have been badly damaged. The children of Mr. Rutan were playing near the culvert and saw the deadly stuff and called the attention of Clyde Power of Beallsville and Ernest Hawkins of Garwood to it. They investigated and found six sticks all ready for action. Mr. Powers took the explosive to Bentleyville and disposed of it.

GREAT PREPARATIONS FOR AUCTION SALE OF LOTS AT ELDORA

The Eldora lot plan, on the Pittsburg and Charleroi trolley line presents a busy picture these days. Great preparations are being made for the auction lot sale to be held there next Friday and Saturday afternoon. A large force of men is engaged clearing off the grounds, building board walks, plowing, road scraping, burning brush, whitewashing, etc., and the whole place is being beautified and made exceedingly attractive. It is being transformed into a delightful place for a home-settlement and looks prettier and more inviting than ever before. Eldora is an ideal spot for suburban homes, as well as profitable investment, and crowds of people are on the ground every day looking over the lots and getting ready to bid at the auction sale. Buying suburban building lots is the easiest way to make money. The lots grow in value while you sleep.

TEACHERS AND SALARIES.

It goes without saying that teach-
ers in the public schools are poorly
paid. In recent years there have
been some increases in the minimum
salaries allowed them by law, but
nevertheless educators are underpaid,
says the Beaver Times. Competent
instructors—teachers who teach and
have an uplifting influence on their
pupils—are paid much less than they
should receive. There are competent
teachers getting forty-five dollars a
month to eight months in the year,
after long preparation for their chosen
profession, which workers in some of
the industries earn more without
any special preparation for their
work. There are other public ser-
vants who give less service and need
no preparation for it whatsoever.

A competent instructor gives much
more than his or her time or ability
as teacher. There is the school in-
fluence and upbuilding of the char-
acter of pupils, which is not such a
great fiction as might be supposed.
Pupils are under the eyes of teachers
more hours every day than they are
under the eyes of the parents. The
teachers who take an interest in the
pupils and their work will exert them-
selves to impart knowledge, to give
stability of character, to elevate
minds, to build high aspirations, to
inspire pupils to strive for the best
ideals. Not all pupils will respond to
the best that teacher can do. The
quality of any product depends large-
ly upon the soil in which the seed is
sown. Nor do all teachers have the
ability or the desire to accomplish
all that is mentioned here.

But notwithstanding that, nearly
all teachers ought to have better sal-
aries than they are getting.

ATHLETES OLD AND NEW.

The athlete who is gone is like the
song that was sung before the days of
the phonographs—a memory only.
Records tell the height of a jump or
the time of a hundred-yard dash; but
there is no way of recording that
grimace of the wrestling
mat the football field, the prize ring.
Ever records are a matter of yester-
day so to speak, says the Chicago
Journal.

Our ancestors of a few generations
back did not hold stone watches nor
carry around rulers and notebooks.
So it comes, that there is no way of
settling the ever-recurring question
of the physical advance or deteriora-
tion of the race. No way of settling
it with certitude. But there is some
facts which point a pitiable verdict.
At a pageant some years ago in Eng-

land it was thought that the spirit
of the middle ages would be better
reproduced if the knights wore real
armor. Those picked to represent the
knights thereupon descended on the
museums where the old armor is pre-
served, and tried to work themselves
into these "iron overcoats." And with
hardly an exception it proved that the
armor worn by the doughty knights
of yore was too small to buckle on
the modest gentlemen of today.

ELECTRIC SPARKS

That tired feeling is nothing com-
pared to that feeling of overwork.

"September Morn'" doesn't sound
like a name that would cause much
trouble, but this innocent title was
attached to a bit of art in the nude
that virtuous Chicago objected to.

Nothing moving pictures seems to
be like anything else, mere work.

Molasses is said by a health spec-

FEAR OVERFLOW OF WATER FROM ROSTRAVER MINE

It is reported that the old Rostraver
mine, across the river from North
Charleroi, which has been abandoned
for years is filled with water. The
worked out portion of the mine is
believed to be flooded from
hard rains of the last few
months. A break is feared. Al-
most yearly this mine gets filled with
water and when the inevitable break
occurs heavy damage invariably re-
sults.

PICKED UP IN PASSING INDEPENDENTS

ARE EASY FOR

PHILLIPS' NINE

Few people seem to realize the en-
less amount of time they waste in
answering the telephone and are
equally regardless of the annoyance
they cause the business people by not
giving plain, direct and immediate
answers. This fault, of course, is due
to thoughtlessness, and, therefore,
is quite pardonable, but is none the
less provoking. So a few simple rules
if followed out, may prove a help,
both to the caller and the person
called:

First—Never pick up the receiver
until the bell stops ringing. In so
doing the bell on your other party's
wire rings and he will answer it,
which causes a babble of voices and
much confusion.

Second—Do not place your mouth
too close to the mouthpiece. This
causes a vibration and this prevents
your being heard distinctly.

Third—When you call a party give
"Central" the district, number and

Fourth—When you get the party,
your question should be, "Is this So-
and-So?" not, "Who is this?" which
is neither a pertinent nor a time sav-
ing question.

Fifth—Speak in as moderate a tone
as you would if the person were right
beside you. To shout also makes a
vibration, which is very annoying, and
even a deaf person can hear a moder-
ate tone over the phone.

Sixth—Don't mention names or tell
"all you know" over the phone. This
is a very unwise policy, and unless
you have a private wire you have no
right to monopolize it indefinitely to
the exclusion of those on your wire.

The teacher was earnestly trying to
illustrate the outcome of laziness and
idleness. He drew a terrible picture
of the habitual loafer, the man who
hates work, and his ultimate fate.

"Now, Charles," he continued to a
little boy who had been looking out
of the window, and whose mind was
far from the lesson of the hour, "tell
me who is the merched miserable in-
dividual who gets clothes, food and
lodging, and gives nothing in return."

Charles's face glowed
"Please, su," he replied, "the
baby!"

CHARLEROI HIGH GETS DRUBBING AT WAYNESBURG

Waynesburg High swamped the
Charleroi High school team at
Waynesburg Saturday afternoon by a
score of 20 to 7. The Waynesburg
boys scored 10 runs in the first inning
on a combination of hits, errors, five
bases on balls and two hit batters.
Frye featured the game with two
three-baggers and a single. The
score by innings:

R. H. E.

MINER COMES TO THE DEFENSE OF CORONER HEFFRAN

To the Editor of the Charleroi Mail:
As a great deal of undue criticism
has been made of the action of Cor-
oner James T. Heffran in naming the
jury he did for hearing the evidence
into the Cincinnati mine disaster on
May 12, I would like to state as a
matter of enlightenment of his critics,
that Section 2, of Article XXVII of
the mining law covers the selection
of jurors for an inquest. The eligi-
bility of jurors, as it reads, is that no
person who is directly or indirectly
interested shall serve on the investi-
gating jury.

This prohibits the coal operator as
well as the miner from acting on the
jury. However all will be permitted
to testify before the jury. Coroner
Heffran is living up to the law which
must be respected. I wish the miners
would read the mining law and quit
knocking. Coroner Heffran is a credit
to the community.

Let us have fair play.

Stable Burns.
The stable of the Vigilant mine
near California was burned during
Sunday night, together with a quan-
tity of hay. The loss will be slight.

No difficulty whatever was experi-
enced by the Indianapolis Federals
Saturday afternoon in defeating the
Charleroi Independents, a dozen to
nothing. All pitchers of the Feds,
including Bill Phillips, Jr., young
and six feet something tall, had the
number of the Independents. Reis
in three innings allowed three hits,
Beebe in two sessions permitted two
bingles. Phillips in two gave one hit
and Billiard didn't permit any tam-
pering whatever with his curves and
shoots.

Two hits in the second inning and
a lot of other things, including a
quantity of stolen bases, brought three
runs for the Feds, and they scored
one in the fourth on a base on balls

WOMEN GAMBLE FOR HIGH STAKES

Many women are gamblers for
very high stakes. They stake their
health and good looks upon every-
thing working out all right when at-
tacked by those ailments which their
sex alone are called upon to suffer.

The only excuse can be ignorance
of the dangerous consequences of
aversion to undergo medical exami-
nation. This may often be avoided by
recourse to Lydia E. Pinkham's Veg-
etable Compound, a perfectly safe
and harmless remedy compounded
from roots and herbs, which for
nearly forty years has been curing
American women from the worst
forms of female ills.

NORTH CHARLEROI

Winona and Anna Paxton gave a farewell reception to about 25 of their hill top friends Thursday evening before moving into the Lockmasters house at the Lock. A lunch was served at 10:30. A very enjoyable evening was spent.

Richard Thomas was a Pittsburg caller on business.

Miss Elsie Claybaugh of Brownsville is visiting her sister Mrs. Charles Booth.

Edward Newell, called on friends in Donora.

Mr. and Mrs. S. C. Cratty have sold their property and will move to Cleveland Ohio soon. Mr. Cratty has resigned his position as motorman on the Charleroi and Monessen car line. He expects to leave today. And the family will leave later.

Mrs. Hiram Myers was the guest of her daughter Mrs. O. J. Kieger of Monessen the last of the week.

Rev. and Mrs. Benjamin Bungard of Monessen were guests of Mr. and Mrs. Charles Fortney Saturday.

Miss Marion Thomas visited at the home of her aunt, Mrs. F. C. Mercer at Pittsburg Sunday.

A GOOD PRESCRIPTION

For a Long Life

This is the prescription for a long life given by an old gentlemen in Conn., who is 99 years old and still well and cheerful—"Live temperately, be slow to anger, don't worry, take plenty of exercise in the fresh air, and above all keep cheerful."

Should the system get rundown—digestive organs weak—the blood thin and sluggish take Vinol, which is a delicious combination of the medicinal—body-building properties of cod's livers, with the useless grease eliminated and tonic iron added. We regard Vinol as one of the greatest body-builders and strength creators in the world for aged people.

Mrs. Mary Ivey of Columbus, Ga., says: "If people only know the good Vinol does old people you would be unable to supply the demand; it is the finest tonic and strength creator I ever used."

We wish every feeble old person in this vicinity would try Vinol on our agreement to return their money if it fails to give satisfaction. Piper's Drug store.

Card of Thanks.

For the many kindnesses extended us during the sickness and death of our beloved husband and father, for the sympathy offered, and for the beautiful floral tributes so generously given, we wish to express our sincerest thanks.

No Rainy Days

To the man with cash in the bank there will be no rainy days—the days of sickness and misfortune will lose much of their sting—it will prove an untiring friend in time of need.

If you will start a savings account with this bank adding a little to it each week, you will do away with the rainy-day fear—it only requires a dollar to get started.

All Roads Lead to Eldora

This radius map shows where the Grand Auction Lot Sale will be held, Friday and Saturday, May 9th and 10th, commencing at 1:30 p. m. each day. This map shows all the steam and electric railways, bridges across the Monongahela river at Lock No. 4, Webster and Monongahela; also, the public highways, and you will find how centrally Eldora is located, and that all roads lead to Eldora.

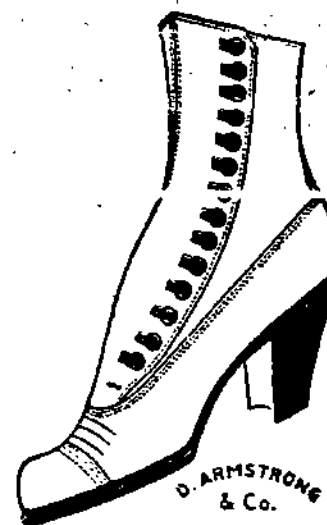

These Lots Are Money-Makers For Shrewd Investors

Every lot remaining unsold at Eldora will positively be disposed of at this auction sale. The highest bidders get the lots without reservation. Eldora is out of the river fogs and factory smoke. Eldora is a beautiful place to live and the lots are steadily growing in value. With the increased number of lot owners following this sale, the value of the lots will be enhanced proportionately. Now is the time to buy and make easy money. Use your head a little and it will not be necessary to have the backache of hard work. Prepare now for old age. Young man, own a piece of ground somewhere. Get a start in life. Be somebody. Lay the foundation for a fortune while you are young, and spend your declining years in the ease and comfort that old age is entitled to. LEGENDS ABOUT DEW.

Curious Beliefs as to Its Origin and Varied Powers.

In many places dew is looked upon as tears of the angels and of the souls in purgatory shed on account of the sins of human beings upon earth, and dew is collected to be used to cure certain diseases, especially those of the eyes, freckles, baldness, cramps, open wounds and cuts, rheumatism, skin diseases, burns, etc.

The virtues of dew as a beauty wash are also well known, remarks the Journal of Religious Psychology. One legend tells how by licking the dew off the plants on a certain morning when all the birds drink it one can learn their language.

Another folk belief is that "naked or with only their shirts on the witches at the time of the new moon collect the dew from the grass with bark sleeves. By this means they deprive of their milk the cows that have been pastured on the grass, and as soon as their sleeves are full of dew they know that their pots at home are full of milk.

The Polish people of Wronowicz call the dew on which the birds are supposed to feed patasio mleko—"birds' milk."

HE SAW THINGS.

The Boy Obeyed His Dad and Learned to Use His Eyes.

In the daily half hour confidential talk with his boy an ambitious London father tried to give some advice.

"Be observing, my son," said the father on one occasion. "Cultivate the habit of seeing, and you will be a successful man. Study things and remember them. Don't go through the world blindly. Learn to use your eyes. Boys who are observant know a great deal more than those who are not."

Willie listened in silence. Several days later, when the entire family, consisting of his mother, aunt and uncle, were present, his father said:

"Well, Willie, have you kept using your eyes, as I advised you to do?"

Willie nodded and after a moment's hesitation said:

"I have seen a few things about the house. Uncle Jim's got a bottle of hair dye hid under his bed, Aunt Jennie's got an extra set of teeth and a lot of false hair in her dresser, ma's got some curls sewed in her hat, and pa's got a pack of cards and a box of matches and a leather covered flask behind the bookcase."—London Tit-Bits.

Historic Old Hotel.

The Golden Kreuz (Golden Cross) at Regensburg (Ratisbon), in Bavaria, is the oldest hotel in Europe. King Ferdinand I. halted at it on his way to his coronation in 1531, and no other hotel in Europe possesses records of such great antiquity as the Golden Cross at Ratisbon does or can boast of having had so many royal visitors as have enjoyed its hospitality. The existing visitors' books, which date from 1819, contain the names of more than 500 imperial, royal and princely personages. The room is shown where in 1865 the late Prince Bismarck, at that time Prussian premier, slept when he came with his sovereign to hold the conference which was the last attempt to prevent war between Austria and Prussia. The negotiations were held in the "small hall" of the hotel under the presidency of King William of Prussia. The host is equally proud of the autographs of Schiller and other men of letters which he possesses. The author of "William Tell" wrote the words "Und eine heimath ist es" ("It is indeed a home") in memory of his stay there, and no landlord could wish for a better advertisement.—London Telegraph.

The Real Thing.

"Do these emotional actresses ever shed real tears?" asked Mrs. Grouch, between acts.

"Sure," replied Mr. Grouch. "Every now and then they hit a bum town and get a peak at the box office receipts."—Cincinnati Enquirer.

Raiment of the Coster.

The English costermonger must be fearfully and wonderfully clothed judging from the following coster tailor's advertisement in a London paper:

"A slap-up togs and kickles builder with opper Benjamin's snipped on a downy plan, with moleskins of hanky panky design, with a double fakement down the sides and artful buttons at bottom, with kickles cut pegtop, half tight, or to drop loose over the trotters, with fancy vests made to flash the dices, or to sit tight round the scrag."

Domestic Joys.

"Rosa, my mother-in-law is coming for a long visit tomorrow. Here is a list of her favorite dishes."

"Yes, sir."

"Well, the first time you give us one of these you'll get a week's notice."—Fliegende Blätter.

Eating in the Fifth Act of Life. The advice which Sydney Smith gave to Lord Murray on the subject of diet was probably sound. "If you wish for anything like happiness in the fifth act of life," he wrote, "eat and drink one-half of what you could eat and drink. Did I ever tell you my calculations about eating and drinking? Having ascertained the weight of what I could live upon so as to preserve health and strength, and what I did live upon, I found that between ten and seventy years of age I had eaten and drunk forty-four horse wagon loads of meat and drink more than would have preserved me in life and health. The value of this mass of nourishment I considered to be worth \$7,000. It occurred to me that I must, by my voracity, have starved to death fully 100 persons. This is a frightful calculation, but irresistibly true."

How a Woman Saved Nice. It happened in August, 1543, and is recalled by Mrs. Walter Tibbitts in "Cities Seen in East and West." Nice (then under the dukes of Savoy) was being besieged by Francis I and Barbarossa.

Catherine Segurine was a washerwoman whose creed was laborate est orare. She carried food to the defenders on the ramparts still left. The Turks had put up a scaling ladder. The captain led his party, and they were actually on the parapet. She rushed at the Turkish officer, wrenched the flag he was carrying from him, beat him back with the butt end and threw down the ladder on top of all. Then rallying the soldiers they threw open a postern made a sortie and drove the Turks to the shore.

Trouble and a Camera in Cairo. I perceived that it would be impossible to photograph any of the bazaars of Cairo without very efficient help. The great good fortune I ran across an excellent dragoman a couple of hours later. He could speak English well, and his terms were reasonable. I explained to him what I wanted to do, and he said he could manage it, so I promptly engaged him, and the following afternoon found me again at the bazaars. Here, in spite of almost insuperable difficulties, I secured several good photographs. No sooner had I taken my camera out of its case than I was literally hemmed in by a crowd of curious people, and before the photograph could be taken these had to be kept back and the traffic stopped on either side of the subject being photographed. The difficulties involved may possibly be imagined, certainly not described. Once a native policeman came to my aid, thrusting right and left with a rope end. The ubiquitous small boy, who wears nothing but an abbreviated cotton gown, went off howling. When the photograph had been taken, every body wanted baksheesh, and my dragoman had to fight off all those not entitled to a fee. I was glad to pay the men who frequently volunteered to keep the crowds back.--Christian Herold.
